Rwanda

Catalyzing Private Capital, Unlocking Tech

Results

Rwanda launched **IremboPay**, a digital platform that simplifies and **streamlines the collection of environmental fines and fees**.

The system has already facilitated the collection of over **US$135,000**, which is being reinvested into conservation initiatives through the Rwanda Green Fund.

Is Rwanda ready for nature-related financial disclosures?

A comprehensive assessment of the country's readiness to adopt and implement TNFD-aligned reporting.
